OVERVIEW

Jessica Klander is a shareholder at Bassford Remele and the co-chair of the Consumer Finance Practice Group. Her practice focuses on defending lawyers, financial entities, healthcare providers, and other organizations against consumer financial protection claims, malpractice, and professional liability claims. In particular, she counsels organizations on privacy, data security, and governmental and regulatory affairs. She assists with advising and representing health care organizations, collection agencies, and law firms against state and federal regulatory inquiries, civil investigative demands, and consumer lawsuits.

Jessica also consults with law firms, collection agencies, creditors, and health care organizations on the myriad of state and federal laws and regulations that apply to an organization's compliance management system. She has significant experience working as a compliance consultant with hospital systems, collection agencies, and law firms, and is regularly retained as outside general counsel to perform compliance audits, build and refine policies and procedures, and provide risk management advice for compliance under the many laws that converge in these arenas, including:

- No Surprises Act,
- Minnesota Attorney General Hospital Agreement,
- Minn Stat. § 62Q.75 (third-party billing/patient responsibility),
- Health Insurance Portability and Accountability Act (HIPAA) (privacy in patient billing),
- Gramm-Leach-Bliley Act (GLBA) Safeguards Rule,
- California Consumer Protection Act (CCPA),
- General Data Protection Regulation (GDPR),
- Equal Opportunity Act,
- Federal Bankruptcy Code,
- Truth in Lending Act (TILA)/Regulation Z (medical credit cards),
- Electronic Fund Transfers Act (EFTA)/(Regulation E),
- Fair Debt Collection Practices Act (FDCPA)/Regulation F,
- Fair Credit Reporting Act (FCRA),
- Telephone Consumer Protection Act (TCPA).

Jessica serves as Treasurer of the Hennepin County Bar Association and on the insideArm Legal Advisory Board. She regularly presents at national conferences on federal consumer regulations, including at ACA International, Inc. Jessica also serves as Bassford Remele's Chief Operating Officer and as co-chair of its Recruiting Committee.

EXPERIENCE

Representative Cases

- Represented agency in appeal on two consolidated claims based on the allegation that language in letters was false or misleading and successfully affirmed dismissal at the Seventh Circuit on grounds that consumers lacked Article III standing because they failed to present any evidence of claimed harm.
- Obtained opinion from the Eighth Circuit Court of Appeals affirming the district court's order dismissing the plaintiff's FDCPA claims on the grounds that the challenged letter was not unfair or deceptive and the interest sought was permitted.
- Obtained opinion affirming the district court's order dismissing the plaintiff's FDCPA claims and holding as a matter of first impression that a materiality standard applies to claims of deception under the FDCPA; *Hill*, 888 F.3d 343 (8th Cir. 2018).
- Successfully defended agency against FDCPA claims and obtained order dismissing the plaintiff's claims on the grounds that the challenged letter was not deceptive, the claims were immaterial, and interest sought was permitted.
- Obtained decision affirming summary judgment in favor of attorney defendants because the plaintiff could not produce evidence to prove that but for the attorneys' alleged malpractice, the plaintiff would have obtained a more favorable result in the underlying real estate transaction.
- Obtained order dismissing a plaintiff's medical malpractice claims because the complaint failed to allege compensable damages.
- Obtained order dismissing a plaintiff's complaint for failure to meet basic pleading requirements under Minn. R. Civ. P. 8.01.
- The Minnesota Supreme Court granted immunity to the provider under the Minnesota Commitment Treatment Act holding that the Act applied to a provider's good-faith actions not to admit a patient seeking voluntary admission; *Binkley*, 877 N.W.2d 547 (Minn. 2016).

- Successfully defended agency against FDCPA claims and obtained order dismissing the plaintiff's claims on the grounds that the FDCPA does not apply to tort subrogation claims and imposing sanctions against the plaintiff for frivolous motion filing.
- Successfully defended client against legal malpractice claims and obtained order dismissing actions and imposing sanctions on plaintiff including filing injunction.
- Successfully obtained order staying litigation in the case until resolution of the FCC's determination on TCPA rulings.
- Successfully obtained reversal of federal district court order granting class certification on claims under the FDCPA because the claims lacked commonality and predominance and a class action was not a superior method of resolving the claims.
- Obtained opinion affirming the district court's order dismissing the plaintiff's claims under the Racketeer Influenced and Corrupt Organizations Acts and for interference with contractual relations and order enjoining the plaintiff from pursuing future similar litigation absent an attorney or court approval; *Blodgett*, 555 F. App'x 639 (8th Cir. 2014)
- Obtained opinion holding that the FDCPA requires that a validation notice be "sent," not "received," that opinions regarding a debtor's creditworthiness do not amount to a FDCPA violation, and that a misrepresentation must be "material" to be a violation.
- Obtained opinion holding that mortgage foreclosure activities, including a pre-foreclosure notice with FDCPA language, are not taken "in connection with the collection of any debt" and therefore not subject to the FDCPA.
